Experience

Enmax Energy

2009-2011

Team Lead, Financial Analyst

Fulfilled a leadership role on the team, mentoring junior staff members on policies and procedures and offering guidance on business practices. Prepare financial reports and variance for review by senior management. Collaborate with other business groups to establish procedures for capturing natural gas revenue and cost allocations. >> Led development of annual operating plans for renewable energy and natural gas assets through to 2025; liaised with multiple departments to ensure business needs were met. >> Eliminated recording errors impacting financial statements; corrected timing of entries in compliance with IFRS and matching principle. >> Streamlined corporate models for natural gas assets; implemented use of checks and balances to reduce errors.

Trans Alta

2007-2009

Senior Financial Analyst

Responsible for the management and external financial reporting for power, natural gas, and environmental product deals. I work closely with our commodity traders and management teams to research complex commodity deals, and assist with implementation into our reporting systems

Citi Group Hedge Fund Services

2005-2007

Senior Hedge Fund Accountant

Responsible for calculating monthly Net Asset Values for various Hedge Fund structures with gross margins up to \$300M. Responsible for the full cycle accounting for funds that invest in complex derivatives such as fixed income, convertible bonds, CDS, CDO, MBS, Repos, Reverse Repos, Forex contracts, futures, commodities, and OTC options. Prepared Financial Statements for interim and year end audits using US GAAP and IFRS. Work directly with Investment Managers during daily and monthly fund valuations. Provided unrealized mark to market reporting and cost roll forward reports as part of a month end package
